## Experience

### BigBinary UI Engineer

At BigBinary, I handle design part of all the client as well as internal projects. From wireframing the initial concepts to implementing the pixels to designing marketing material for the projects, I have worked on all the design aspects of project.

Remote / September, 2016 – Present

### Instahyre UI/UX Designer

Worked with the engineering team to enhance the interface and add to the experience to gain more traction on the recruitment platform. In this, I've handled designing email designs as well as newsletters, basic graphics like designing icons and hero images etc.

New Delhi, India / 2015 – September, 2016
